DATE EXPOSED DATE COMPLETED

DESCRIPTION Post hole - This feature before being dug, appeared on the surface as a slight depression. It was impossible to take out a section due to the infill which consisted of large stones and much earth, so I've drawn it as it was being dug. The upper level of infill having lighter coloured soil than the lower. ↘

ASSOCIATED FEATURES

ASSOCIATED FINDS **Some pieces of charcoal from the extreme bottom ②.**

✓ COMMENT
All stones were large, with a lot of packing stones in situ - some not shown in drawing. Finds were all from near the top ① except for some pieces of charcoal which come from the extreme bottom ②.
